

## John Reid – Real Estate Professional

*John Reid is a professional – one who has kept learning all his life.*

Straight out of school, John studied at Massey to obtain a BSc in veterinary science – quickly growing from his first job as a vet into the general manager position before he was 30.

Successfully growing the business by trebling the turnover and more than doubling the profit, John learned how to manage people – as well as animals!

After moving to Auckland, John decided to change his career direction and chose real estate because it offered many of the things he was looking for – an opportunity to work closely with people, a chance to make a difference in people's lives, and potentially a decent income. But it also offered him a growth path – a chance to keep learning and growing.

Initially John joined Harcourts and learned his new trade with professionals he respected. Studying part-time, John did 8 papers through Massey University to become accepted as an Associate of the Real Estate Institute of New Zealand, and gain a Diploma in Business – Real Estate Studies. He was recently presented with the Real Estate Institute Award for top marks in the Massey University Real Estate Diploma of Business Studies programme.

He found the process very valuable and it has enhanced his ability to be helpful to his clients.

In 2006 John, his wife Linda and business partner Kerry Bowden, started a new business - Jet Realty Ltd. Wanting to be part of the largest real estate group in the world; the three chose to join RE/MAX. Hence RE/MAX Jet MREINZ was born.

They have been joined by a team of professional, hard-working real estate sales people and proudly operate to an extremely high ethical standard.
